

22nd April 2024

Local Rule at Geneva Airport

Additional airport departure slot between 22:00 and 22:55lt

Introduction

Geneva Airport is increasing the airport departure and total movement capacity between 22:00 and 22:55lt as of STT 2020. One additional airport departure slot is available during this time frame for 3 weekly movements. Slot demands exceeding this capacity shall be coordinated between the Slot Coordinator and Geneva Airport and is subject to approval of the Swiss Federal Office of Civil Aviation (FOCA).

Allocation of additional airport departure slot between 22:00 and 22:55lt

The following procedure is binding for administering this additional airport departure slot between 22:00 and 22:55lt:

The coordinator will allocate this slot only to a series of slots for passenger flights if the flight distance between Geneva and the next destination is at least 5000 km or more and the operated equipment is in noise category IV or V (according to AIP Switzerland, Gen 4.1 Appendix A). Stopovers are not permitted.
